

CHARITABLE WILLS & BEQUESTS

These are the simplest and most popular planned gifts. The Foundation can be named in your will to receive an unrestricted gift for Foundation purposes or a restricted gift for scholarships, technology, or medical services.

CHARITABLE REMAINDER TRUSTS

Charitable trusts come in various forms. The most common is the Charitable Remainder Annuity Trust. In this method, a trust is set up to receive an asset. The trust owns the asset and you receive income from its investment during the next 20 years or your life. The asset then reverts to the Foundation after the specified term is ended.

INSURANCE

Life insurance is a unique way to give a planned gift. The Foundation would become the beneficiary and no other ownership would be retained.

CHARITABLE GIFT ANNUITY

In this agreement, a gift of assets would be given to the Foundation and you would receive a fixed income for life; the amount determined by your age and amount of the gift. This type of gift is popular because it offers the potential for secured future income.

GIFTS OF CASH & SECURITIES

Let's not forget donations of cash or securities as a planned gift. A cash or securities gift is immediately available to benefit the Foundation in accomplishing its health-related purposes.

REAL ESTATE and PERSONAL PROPERTY

Gifts of real estate or personal property can be given to the Foundation to continue its cause. Real estate must be owned outright. Tangible personal property might include art, jewelry, furniture and artifacts. These gifts are subject to Foundation approval prior to making the gift.

Now Is the Time

As you can see, planned gifts can benefit you and the Foundation. They allow you to determine where, who, when and how you wish to give. You can give a legacy that will honor your memory, enhance the community, support the medical needs of future generations, and tax and income benefits may apply.

We know there are many worthy charities, but few will have more lasting impact for good within our local communities than your support of Good Shepherd Community Health Foundation.

Planned Giving

"Making a Difference"

Making A Difference

Most of us would like to leave a lasting legacy to show that our lives have made a difference to our families, community and society.

Planned giving can be a very satisfying and rewarding experience. It may also benefit you financially in substantial ways.

Who We Are

Good Shepherd Community Health Foundation was established in 1995 to address the healthcare and medical needs of West Umatilla and Morrow Counties. It's a grass-roots philanthropic organization dedicated to making our communities healthier, safer, happier, and a more stimulating place to live and raise families.

Why the Foundation

Since its inception, the **Good Shepherd Community Health**

Foundation has awarded well over \$1,250,000 in health-related grants, medical scholarships, and health care services to our local communities. Funds received support qualified health-minded community organizations, medical education for college students, and advanced training for hospital employees seeking additional expertise.

All of this fosters improved health of our citizens by enhancing, recruiting and retention of medical personnel within our communities and as additional support to our local hospital.

Our purpose is to give funding for health related services and training to our communities and local hospital.

Why A Planned Gift

Planned Giving is a stabilizing factor in providing medical services and benefits to our communities and hospital for future generations. It is a philanthropic gift of long-term support that will bless the lives of our children and grandchildren by endowing the Foundation with resources that will continue its vital work.

In addition, a planned gift may be able to save you taxes, increase your retirement income, or provide for a loved one such as a spouse, child, grandchild, or elderly parent.

The following are some of the opportunities available in planned giving. The specific plan best for you depends on your personal circumstances. Your tax and financial advisor should always be consulted while making these plans.
